## REACH Regulation Declaration for Articles

DINGS' MOTION USA (DINGS') is aware of EU legislation control and restriction of certain chemical elements under REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) Regulation program. DINGS' is a supplier of articles, products that do not "intentionally release" chemicals and therefore, we are not bound by the REACH Regulation regarding chemical registration. (NOTE: DINGS' does not produce or distribute standalone chemicals or preparations).

We (DINGS') declare; to the best of our knowledge; that our motor, lead screw assembly, and driver / controller products are compliant with REACH Directive 2006/1907/EC of the European Parliament of the Council. This includes:

1. Article 33 - Communication of Substance Information: On January 19, 2021, ECHA increased the number of substances on the SVCH list to quantity 211 substances. DINGS' continues to monitor our supplier material composition declarations and, at present, has determined there are no SVHC present >0.1% weight in any component in our products or packaging materials.
2. Articles 67 and 56: Under Articles 67 and 56, substances listed in Annex XVII and Annex XIV are restricted from use by application or require prior authorization for use. DINGS', to the best of our knowledge, has no known Annex XVII and Annex XIV substances subject to pre-authorization.

DINGS' will continue to evaluate the list of SVHCs and will immediately notify our customers if / when a SVHC substance > 0.1% level is discovered in our products.
